

ZENZA®

Lookbook 2025

About us

When we create our collections we always ask ourselves if something adds *soul* to a room. We are always looking for ways to make a house feel like a home. It's all about making the *mood* right, understanding how to create an atmosphere and, for us, the art of mastering *light*. That's what Zenza is all about and what we love to do.

We truly believe in the magic of good vibes. We work *ethically* and fair with our artisans. It's important to us that they can thrive and grow with us. We offer microfinance-loans, for example, so they can be owner of their workshop and create work and independence for themselves. We innovate together, but we also keep *traditions* alive through our products.

So many talented hands and creative minds have worked with us to make this new collection, it became a tribute to *handwork!* Some of our newest pieces are made from really special materials, nature's finest finds!

Getting curious?

We love to show you our creations in this brand-new lookbook. and we are looking forward to another *Zenzational* season together!

With love,
The Zenza team

Lighting

Every lamp and every *material* has a story,

be it a brass, alabaster or loofah lamp.

They are all unique and made with *love!*

Loofah Gab XL Naturel

Loofah L Naturel

Probably you know the *loofah* as a sponge for a good body scrub?

This vegetable has an incredibly detailed surface. It looks like *coral* and other precious materials from the sea.

We gave them a new fabulous life as poetic lampshades. Often designs and patterns that are harvested directly from *nature* are the best!

Loofah Gab M Naturel

Loofah S Naturel

Simple, sturdy but poetic at the same time... *Alabaster* has it all!

This type of stone is known since the pharaohs in Egypt and was found in the old city Alabastron.

The local craftsmen have inherited their skills to work with this stone over many generations and thousands of years.

Its colour is the *perfect natural* and soft shade for a lamp or candle holder. Alabaster is a porous stone. That's why the light shines through it so beautifully.

Alabaster S Amber

Alabaster M Amber

Alabaster S Ivory

Alabaster M Ivory

The patterns you see in the brass Zenza Lights are punctured by hand,
without the use of any stencils. Therefore each lamp is *unique*
